

BHASKAR TIWARI

B.Tech — Artificial Intelligence & Machine Learning
Sagar Institute of Research & Technology (SIRT), Bhopal

bhaskarempor835@gmail.com | (+91) 7828837829 | Rewa, Madhya Pradesh

SKILLS

- ◆ **Programming:** C, Java
- ◆ **Machine Learning:** K-Means Clustering, Customer Segmentation
- ◆ **Areas of Interest:** Artificial Intelligence, Machine Learning, Data Science
- ◆ **Problem Solving:** Programming fundamentals, logical and algorithmic thinking

EDUCATION

B.Tech — Artificial Intelligence & Machine Learning SIRT, Bhopal	CGPA: 7.73/10
Expected Graduation: 2028	
XII (MP Board)	83.2%
X (MP Board)	78%

ACADEMIC PROJECTS

Consciousness-CO₂ Tracker

Calculates CO₂ emissions based on user-entered data and also considers the user's consciousness level to promote awareness of the relationship between personal choices and environmental impact.

WProcessing with BODH

Explored the root cause of why there is so much waste in India, going beyond waste management alone and focusing on self-awareness (BODH) to encourage more conscious behaviour among users.

Customer Segmentation using K-Means Clustering

Applied K-Means clustering to group customers with similar characteristics and identify meaningful customer segments.

ACHIEVEMENTS & LEADERSHIP

SAGEATHON 2026 — SIRT, Bhopal | Team Leader

Led the team, coordinated activities, contributed to solution development, and represented the team during the event.

Smart India Hackathon (SIH) — Internal Round

Successfully cleared the internal selection round.

CERTIFICATION

NPTEL — Problem Solving Through Programming in C | 12-Week Course | Score: 53/100

SOCIAL & COMMUNITY ENGAGEMENT

- Engaged in awareness work around **climate change, veganism, animal welfare, social responsibility, and Vedantic/philosophical inquiry.**
- **Bhagavad Gita Community — 3 Years:** Associated with Acharya Prashant's Gita community for approximately 3 years, participating in learning and awareness activities.
- Create educational content focused on social awareness, environmental responsibility, and conscious living.

COURSE / CAREER OBJECTIVE

"I am moving towards technology because I don't want AI and Data science to remain just tools for profit or entertainment. My goal is to build solutions that are not only smart, but also socially aware and impactful. Technology becomes meaningful when->used for humanity"
